CUT-OUT GROUND BLIND

WIND DIRECTION ACTIVITY

Hunter that is upwind.

Notice the hunter's scent is being carried TOWARD the animals and they are alerted to the hunter's presence.

Hunter that is downwind.

Notice the hunter's scent is being carried AWAY from the animals.

Decorate and cut out the pinwheel template. Use a pencil, a thumb tack and a rubber eraser to assemble the pinwheel.

Test wind directions and determine the difference between downwind and upwind.

BINOCULARS TEMPLATE

You glimpse a movement.

Is it an elk or leaves blowing in the wind near a rock?

To get a better look, you need to use binoculars before planning your next move.

Decorate and cut out the template.

Roll the paper and tape it to create a binoculars effect.

Attach a string to carry the binoculars around your neck.

EXPERIMENT WITH **CAMOUFLAGE**

In order to get close to wildlife, you need to blend into your surroundings. Wearing the appropriate camouflage clothing from head to toe will help you stay out of sight. Also face paint, or masks ensure your face doesn't stand out as a bright and shiny spot that animals will notice.

Experiment with nature-colored face paint patterns and clothing to try to blend in with nature in your geographic location!

Have a friend or parent take a photo of you so you can see how well camouflaged you are or what adjustments you need to make.
