Code of Alabama
Game Breeder – Resident & Non-Resident

www.legislature.state.al.us

Revised: 09/09

Section 1. For purposes of Sections 1 to 6, inclusive, of this act, the following words have the following meanings:

(1) **GAME ANIMAL.** A species of animal designated by the Commissioner of Conservation and Natural Resources pursuant to Section 9-2-7 of the Code of Alabama 1975, as a game or fur-bearing animal, any game or fur-bearing animal that exists historically and naturally in the wild within this state, or any game animal of the species of the family Cervidae (deer) that exists within this state in the wild as a result of the natural expansion of its range prior to the effective date of this act which are white-tailed deer, fallow deer, and elk.

(2) **NONINDIGENOUS ANIMAL.** A species of animal, other than birds, that does not exist historically and naturally in the wild within the state or does not exist within the state as a result of the natural expansion of its range.

(3) **TAME GAME ANIMAL.** An animal that has been held captive as a zoological attraction or exhibit, or any animal, at the time of hunting, not exhibiting the flight characteristics or wariness for the species.

Section 2. (a) It shall be unlawful for any person to hunt or kill, attempt to hunt or kill, or offer the opportunity to hunt or kill native game animals or any other animal legally permissible to hunt for a fee or other valuable consideration or for recreation under conditions in which the animal hunted does not have a reasonable opportunity to evade the hunter, including, but not limited to, hunting animals that are tied, staked, hobbled, or caged; animals that have been released from confinement less than 10 days; or animals that are taken by aid of any remote controlled or computer aided device. Hunting of native game animals or any other animal legally permissible to hunt within the confines of an enclosure does not in and of itself constitute a violation provided adequate space and escape cover for the species exist to provide the animals with a reasonable opportunity to evade the hunter.

Section 3. It shall be unlawful for any person to hunt or kill, attempt to hunt or kill, or offer the opportunity to hunt or kill any tame game animal for a fee or other valuable consideration or recreation. The promise or guarantee of, or contract for, killing an individual tame game animal, shall be prima facie evidence of a violation of this act.

Section 4. (a) It shall be unlawful for any person to hunt or kill, attempt to hunt or kill, or offer the opportunity to hunt or kill any species of animal nonindigenous to the state including, but not limited to, any species of African or Asian lion, tiger, or elephant for a fee or other valuable consideration or for recreation.

(b) This section shall become effective one year after the effective date of this act.

(c) This section does not apply to feral swine or to any species of animal deemed a nuisance by the Commissioner of Conservation and Natural Resources, nor to any nonindigenous animal lawfully brought into this state prior to the effective date of this act, or their offspring; provided the owner of the nonindigenous animal provides written notice to the commissioner of the ownership and location of the species.

Section 5. Nothing in this act shall prohibit the hunting of pen-raised birds by properly licensed hunters or by properly licensed persons engaged in the training of bird dogs, or by persons engaged in bird dog field trials as provided by law or rules promulgated by the Commissioner of Conservation and Natural Resources.

Section 6. Any person, firm, corporation, or association that violates Sections 1 to 5, inclusive, of this act shall be guilty of a misdemeanor and, upon conviction, shall be fined not less than two thousand dollars (\$2,000) nor more than five thousand dollars (\$5,000), and may be imprisoned in the county jail for a period of not more than 30 days for each offense. A second and subsequent offense shall be punishable by

a fine of not less than five thousand dollars (\$5,000), and by imprisonment in the county jail for not less than 10 nor more than 30 days.

(a) For the purposes of this section, Section 9-11-31, and Section 9-11-31.1, the term "protected game animals and game birds" means any species of bird or animal designated by the Commissioner of Conservation and Natural Resources by regulation pursuant to Section 9-2-7, species of the family Cervidae documented by the department to exist in the wild in this state prior to the effective date of this provision which are whitetail deer, elk, and fallow deer, or species of nonindigenous animals lawfully brought into this state prior to the effective date of this provision and their offspring.

(b) The Commissioner of Conservation and Natural Resources may issue an annual game breeder's license to any properly accredited person, firm, corporation, or association authorizing a game breeder to engage in the business of raising protected game birds, game animals, or fur-bearing animals, for propagating purposes in this state. Before a license is issued, the Commissioner of Conservation and Natural Resources shall make or cause to be made a thorough investigation and therefrom determine the qualifications, responsibility, and equipment of the applicant for entering upon the business of breeding, raising, and handling of game birds and game or fur-bearing animals. No license shall be issued or renewed for any person, firm, corporation, or association or any principal officer or partner in a firm, corporation, or association which is convicted of violating Section 9-2-13(c) after the effective date of the act adding this language, or for the premises of any person, firm, corporation, or association whose license privileges are revoked after the effective date of the act adding this language. A game breeder's license shall expire on September 30 of the year in which issued, unless renewed, except that any license issued pursuant to this section between the effective date of this act and September 30, 2006, shall expire on September 30, 2006. The commissioner shall promulgate rules for engaging in the business of breeding, raising, producing, and handling of protected game birds and game animals or fur-bearing animals or their eggs, embryos, or semen.

(a) Any person, firm, corporation, or association holding a game breeder's license as provided in Section 9-11-30 may sell live protected game animals and game birds, or the eggs, embryos, or semen of the birds and animals for propagating purposes to any person within or without this state. The purchaser or purchasers of protected game animals or game birds, or eggs, embryos, or semen of the birds or animals, shall be reported to the Commissioner of Conservation and Natural Resources before the sale or shipment of same. The serial number of the license of the game breeder making the sale or shipment shall appear or be attached in a conspicuous place on the crate or other container in which the game animals or game birds, or eggs, embryos, or semen of the birds or animals are being shipped. The Commissioner of Conservation and Natural Resources may cancel or declare void any game breeder's license when it is not being used in strict compliance with this section and Section 9-11-30. Notwithstanding anything to the contrary herein, licensees under Section 9-11-342 shall not be required to obtain the license provided for in this section in order to engage in those activities licensed under Section 9-11-342.

(b) Notwithstanding anything to the contrary herein, any person, firm, corporation, or association who, prior to the effective date of the act adding this subsection, is in lawful possession of nonindigenous game animals in this state may certify that status in writing to the Commissioner of Conservation and Natural Resources for a period of six months from the effective date of the act adding this subsection and may apply for an annual nonindigenous game breeder option to the game breeder license. This license shall cost an additional fifty dollars (\$50) and shall run concurrently with the annual game breeder license. This license shall permit the holder thereof to engage in those activities permitted under the game breeder license for those nonindigenous animals which were lawfully in this state prior to the effective date of this act or their offspring only. The holder of the license may only buy or sell these animals from or to other holders of the nonindigenous game breeder option license or sell to lawful buyers outside of this state. If an applicant for the nonindigenous game breeder option license restricts its activities to less than all of the possible permitted activities under the game breeder license, as long as the applicant meets the requirements for the restricted activities, the applicant may be licensed for the restricted activities only by obtaining the game breeder license and nonindigenous game breeder option on a restricted basis."
