

LILLIAN SWAMP

Lillian Swamp in Baldwin County consists of 3 acquisitions (Nos. 29, 31 and 54) covering 1,452 acres of pine savannah wetland habitat adjacent to Perdido Bay. The Lillian Swamp – West Tract Addition was acquired with financial support from the U.S. Fish and Wildlife Service's National Coastal Wetlands grant program. These tracts are being managed as a Nature Preserve.

Adjacent to the Lillian Swamp complex are tracts owned by ADCNR's State Lands Division and the Alabama Department of Transportation (ALDOT). Habitat management and recreational opportunities, such as hiking, hunting and wildlife observation, benefit from coordination between Forever Wild, the State Lands Division and ALDOT.

Directions:

From Mobile, take I-10 East to exit 44 (AL-59). Travel south on AL-59 approximately 18 miles to US 98. Turn left on US 98 in Foley and travel approximately 15 miles to Lillian. Turn left on Baldwin Co. Rd. 99/Boykin Blvd. and go approximately 1.7 miles to Oak Street. Turn left on Oak Street and the parking lot will be ahead on your right.

Coordinates to the parking lot:

N 30.422092

Calico Pennant

Alabama has 173 species of dragonflies and damselflies (Order: Odonata).

Odonates are normally associated with aquatic habitats such as ponds, streams and rivers, but they can also be found away from water. They are carnivorous, feeding on small insects.
