Regulation 220-2-.118 MIGRATORY BIRD HARVEST INFORMATION PROGRAM

Any person hunting migratory birds (woodcock, dove, rails, sora, Wilson’s snipe, coots, gallinule, merganser, ducks or geese) required to be licensed should have completed a free Migratory Bird Harvest Information Program survey card providing information for the preceding season prior to hunting any species of migratory bird. Each person required to be licensed hunting migratory birds in Alabama should have the survey completion stamp on their person while hunting migratory birds. It shall be a violation of this regulation for any person required to be licensed, having been warned by a law enforcement officer, to continue to hunt migratory birds without the survey completion stamp on their person.
